**[CLICK HERE TO JOIN THE CAMPAIGN TO LOWER LLC FEES IN ILLINOIS!](#)**

Greetings!

The Small Business Advocacy Council and a robust coalition of chambers and local groups are engaged in a grassroots campaign to lower the excessive LLC fees in Illinois. Our efforts have made a real impact and the coalition-backed bill, SB 867, passed the Illinois House with unanimous support on May 31st. The next step is for the sponsor of the measure, State Senator Tom Cullerton (D-Villa Park), to bring it up for a vote in the Senate during the fall veto session. After years of work, these much needed changes are closer than ever to becoming a reality!

***THE FACTS - Lowering LLC Fees Will:***

- Improve the perception of the business climate in our state to help Illinois compete for the best and brightest talent, resources and opportunities for growth.
- Encourage new businesses to form, which will revitalize city neighborhoods and suburban communities.
- Help level the playing field for small businesses by matching LLC rates to those corporations currently pay.
- Prove that politicians in Springfield can get past the partisan gridlock and come together to take real action in support of the small business community.
